Our Lady of Victory School Parent Testimonials

#

From a mom of two boys:

“Being the parent of two children currently attending Our Lady of Victory School, one in 1st grade and the other in 3rd grade, I can sincerely say that our family has had a wonderful experience with the staff, students, and parents. Our original intention was to send our oldest just for the full day kindergarten program, but due to the level of commitment and dedication of the teachers and administration, we decided to keep him enrolled along with my youngest child. The school provides a rich educational experience, along with a warm, friendly atmosphere. The children learn more than how to score well on tests - they are educated with traditional values, along with learning respect and responsibility.”

The mom of a 1st grader and 3rd grader writes:

“My husband and I cherish our memories of Catholic school so much that there was no question when it was time for our children to attend school that they too would receive a Catholic education. I remember our youngest asking repeatedly how soon till he could go to OLV School all day like his brother. For years he had observed his brother's joy as he shared stories of his school day, his teachers and his time in the schoolyard with his friends. As parents, we are filled with pride as we watch our boys grow into solid students who practice their faith. We are forever grateful to the dedicated teachers and staff who have made OLV School such an enriching environment as well as our sons' home away from home.”

#

The mom of a second grader and another in Pre-K writes:

“The OLV School community provides our children a small, child-centric learning environment that extends beyond the common core standards. Our children truly feel part of a school family, they feel loved, valued and secure, which has allowed them to thrive and succeed. #

The parents of a 1st and 3rd grader share:

“At Our Lady of Victory School in Floral Park, our children receive a solid, well-rounded, faith-based education. The faculty and staff are caring, friendly and very committed. Our children have made such lovely friendships and have grown both spiritually and intellectually in the years they have been there (both since nursery). They look forward to going to school every day.”

#

From the parents of a 5th and 7th grader:

“OLV School is truly unique in that it develops a solid religious backbone in the children that “makes a mom proud.” My husband and I could not have instilled that type of loveliness in our children alone. Besides being an excellent school, I'm impressed with the commitment OLV School has toward each child's success. As working parents, we are glad to have the opportunity to be involved in the school, which also strengthens our ties to OLV church ...and has enabled us to meet so many wonderful families. We truly feel blessed to be part of OLV School.”

From the mom of a three children – grades 2, 4 and 8:

We have seen over the years how our children have grown academically and spiritually. We know our children are not only getting a solid education preparing them for the future, but are in a Catholic, faith-based environment where they are flourishing. Yes, it is a sacrifice for us to send our children to OLV School. But I can honestly say it is one we don't mind at all! That in itself is a lesson we try to instill in our children. I feel sending our children to OLV School, not as a sacrifice, but as an investment in their educational and spiritual future. It is a decision my husband and I have never regretted.”
